MISS ELIZABETH SMITH . . . . . 2ND COR. SECRETARY

Berkeley, Cal., July 10, 1920

Dr. Philip. Mumy  
Department of Botany, Pomona College,

My Dear Dr. Mumy:-

I am sending you under separate cover a copy of a publication relating to the rust flora of California, in which I suspect you have some interest. A recent letter from Mr. E. E. Bethel, of the federal forestry bureau, informs me that you are in possession of a set of Baker's "Fungi of the Pacific Coast," which I was unable to make use of in the publication referred to above, one which may contain a number of records which do not appear in it. As I am hoping to get out a revised and more comprehensive publication on the rusts of the state at some future date I am venturing to ask whether you would be willing to loan me this set for a few days use. If so I can assure you the favor will be greatly appreciated and I shall be glad to reciprocate in any manner you can suggest. It can be sent insured at my expense either by mail or express.

Very sincerely yours

W. S. Blasdale
